

Shape that Lasts as Long as Your Clothes

"THAT suit always looks well on him." That's what you want men of judgment to think when they see you. Everyday dressiness, week in and week out, depends mostly on lasting shape on your clothes.

Shape is as much a part of Clothcraft Clothes as the cloth itself. It's sewed and held in every stitch—it's tailored in to stay. It does not depend on pressing. Pressing alone gives shape, but will not hold it. To last, shape must be in these clothes before the iron touches them. All-wool cloth, thoroughly tested and

shrunk, added to skillful tailoring, explains why Clothcraft Clothes hold their shape as long as the clothes last.

This is only one of the points covered in the Clothcraft guarantee that makes these clothes such wonderful values at \$10 to \$25.

When are you going to give us a chance to show you these insured clothes?

Made and guaranteed to hold its shape and good look - the Clothcraft Blue Serge Special No. 4130 at \$18.50

SOMETHING IS WRONG

Department of Commerce statistics show, says William N. Taft in January Technical World Magazine, that it costs eight times as much to deliver a pound of coffee from a country grocery store to a home a mile away as it costs to bring that same pound of coffee from Rio de Janeiro to New York.

Also it costs the farmer who lives ten miles from the railroad over which he ships his products, one and one sixth cents more to haul a bushel of wheat to the freight station than it costs the buyer to ship that wheat from New York to Liverpool.

Is it any wonder that the price of cotton, and coffee remains at a high level instead of falling proportionately to the increase in production?

Something must be wrong.
Something is wrong.
It is the roads!

Few persons realize the immense tax put on all of us by the bad roads and by the difficulties which they entail.

True as Gospel! And yet, when the General Assembly of Kentucky meets, and it is proposed to provide State aid for the building of good roads in every county, for the joint benefit of the farmer, the ultimate consumer, the tax payer in short, of every resident of the State, solemn-visaged statesmen will rise up to announce their opposition "because the State can't afford it."

Kentucky wasted \$2,000,000 on bad roads last year. For \$2,500,000 and with convict labor from five to ten miles of perfectly-constructed roads could be built in every county of the State next year. At the end of ten years, Kentucky would have worked out its road problem.

The sum of \$5,000,000 is all that stands between Kentucky and a State-wide system of good roads at the end of ten years. If it is not expended, Kentucky by that time will have wasted \$20,000,000 with nothing to show for it, but worse roads than the State has now.

It is not a question whether Kentucky can or cannot afford to grant State aid. It is a certainty that she cannot afford to withhold it. —Louisville Times.

SCORE ONE FOR WOMAN

"Jemima Jane," the husband said, "we go this eve to dine with Jones; now, wear a sane hat on your head and decent rags upon your bones. You're going in for modern styles and think it wisdom, I suppose; and you are spending piles and piles of hard earned rocks I bughouse clothes. I do not kick at the expense, but when you go abroad with me I want your dress to show some sense—I care not what the fashions be."

"In olden days, when I was young, the women dressed with sense and taste; no matron on her person flung a dippy skirt or silly waist. The women tried to hide their limbs and modestly they decked their frames; the memory my eye bedims when I looked round on modern dames. So don't array yourself, as those, in things that make the people stare; remember what your mother wore and something modest like it wear."

Jemima Jane, in sore distress, went up to make the needed change. She had a brand new modern dress, but since her husband placed a ban on all these she wished to wear, the new dress was an also ran, and so Jemima tore her hair. Her eve fell on an ancient trunk. Jemima cried, "That's what I'll do! I'll wear a lot of mother's junk, that's not been worn since '82."

She togged herself from end to end in garments of the grand old days. She wore a stately Grecian bend and monumental whale bone stays; the sleeves were tight, the waist was flat, with foolish ribbons here and there. She wore a dinky little hat and knotted net upon her hair. And from the waistline to the floor the dress was large enough to hold two dozen shapely limbs or more—but only two did it infold.

Then she burst on her husband's gaze and he inquired no signs of bliss, but widely cried, in his amaze, "Great Scott what dog gone freak is this? Can this be you, Jemima Jane, the woman that I made my bride, or has the weather soured my brain and made me draft and grey-eyed? Can this

be you, the once sweet maid I vowed to cherish and protect, or have my faculties all strayed? Has something spoiled my intellect? "These are mother's clothes," said Jane, "the kind of rags you like the best; you know that they are safe and sane and modest till you cannot rest."

"Go, take them off," his voice arose, "and put on something up-to-date! If women wear such duds as those, no man could keep his brain on straight. I never knew our mothers owed allegiance to such nutty styles. No wonder that our fathers groaned through life and looked on death with smiles."

CAN'T UNDERSTAND

That the Hay-Paunczote Treaty Permits This Government To Fortify Panama Canal.

Western Newspaper Union News Service.
Washington.—Emboldened by its sinister commercial alliance with Germany, Great Britain has intimated to the United States that it does not understand that the Hay-Paunczote treaty permits this government to fortify the Panama canal. This extraordinary move, coming after the fortifications have been nearly completed, and after the question had been apparently forever settled, has started the state department into a realization of the full significance of the English-German-Japanese combination against the United States. Although the utmost secrecy is being made of the matter in the state department, it can be authoritatively stated that the relations of this government with Great Britain are at present more strained than at any time since Cleveland's ultimatum on Venezuela.

DESPERADO'S WIFE

To Enter Kentucky Mine To Try and Persuade Hendrickson and Companions To Surrender.

Pineville, Ky.—Rain and intense cold kept the guards in misery. Several unsuccessful attempts to escape have been made by the barricaded desperadoes. Happy Jack Hendrickson's wife was interviewed by members of the posse, and upon being told that a barrel of sulphur would be burned at the main entrance of the mine unless a surrender was made, promised the officers that if they would not start smoking them out that she would go into the mine and try to persuade her husband and his companions to surrender.

FIRE DOES GREAT DAMAGE.

Montreal, Quebec.—Fire destroyed the entire plant of the Auto Garage Co. and five adjoining stores, and for a time threatened the entire district adjacent. The damage has been set at \$225,000, but will probably greatly exceed that figure. Two men were injured by an explosion of hundreds of gallons of gasoline in the big garage. Fearing another and more serious explosion the police cleared the neighborhood of the inhabitants. Sixty automobiles stored in the garage were destroyed.

TUNNEL DUG BY CRACKSMEN.

San Francisco.—Cracksmen tunneled 150 feet and pierced the concrete walls of the First National Bank of Oroville vault. They obtained \$2,700 in silver, but were unable to blow the steel coin safe, in which was stored a much larger amount of gold and currency. The base from which the robbers worked was the cellar of a building occupied at night, and they had ample time to dig their tunnel.

THEY PREFER OURS

No Wonder, Simple as A B C. Ours Cost Less Ours Wear Better They Have More Style

It's about as difficult to describe these new clothes as to write about the prettiest girl at a Leap Year Party. You've got to see her with your own eyes. Maybe you'll like her—if you don't there are others. So, if one suit doesn't please you, we've another. It's a question of taste. Prices? That lies with you. The better the clothes you buy, the longer they last and the better they look while you're wearing them. But everyone prefers ours. They are best.

It's easier and more convenient to write a check for this amount than to count out a ten, a five and four ones, a half, a quarter, two dimes and four pennies.

A checking account in our bank does away with all such bothersome difficulties for you always have the right change when you write a check. But that is merely one of the many advantages chief among which is **Automatic Bookkeeping.**

This organization just one year old to-day has done more for the upbuilding of the town than any other movement ever started here.

It has brought about a better feeling among members and citizens and has united the community under the motto of "Co-operation" which is not merely used for ornamental purposes but is in truth and fact a great stimulant to all in putting into effect those things tending to the improvement and betterment of our town and county.

The auxiliary club Boone Way Booster Band has 150 live members, many of them living in other cities towns and counties. All wear the badge and are good boosters, pushing the movement for building a national highway from Cumberland Gap to Crab Orchard.

SWALLOW IT QUICK

Impatient people water their miseries and hoe up their comforts; sorrows are visitors that come without invitation, but complaining minds sends a wagon to bring troubles in. Many people are born crying, live complaining and die disappointed; they chew the bitter pill which they would not even know to be bitter if they had the sense to swallow it whole in a cup of patience and water.

FOR SALE—1-16 hp, Huber traction boiler and engine, in first class condition ready for threshing or sawing; 1 No 2 Russell saw mill, rope feed, 65ft track, 30ft carriage, 3 good blocks, 1 set lumber trucks, 1 lathe mill, 1 cut off saw and other things belonging to a mill not mentioned. 3 miles of Brodhead near Chesnut Grove school house.

CAR SINGLETON, Jan. 2-31 Brodhead, Ky.

Now listen to this from the Jewell County Republic: "Four thousand girls have taken the domestic science course at the State Agricultural College, three thousand at the State University and two thousand at the State Normal.

Of these nine thousand girls 4,200 have married, and not one out of the whole bunch has asked for a divorce. This shows that when a man gets a good cook and a good housekeeper he prizes her so highly and treats her so fine that she never wants a divorce."

Last Saturday was the regular annual election of officers of As. land Lodge, No. 640, F. & A. M., when the following officers were elected, appointed and installed:

A. B. Furnish, Master; E. B. Cox, Senior Warden; E. R. Gentry, Junior Warden; J. E. Coffey, Treas.; Victor C. Tate, Secretary; J. W. Parsons, Tyler; E. S. Albright, Senior Deacon; W. T. Davis, Junior Deacon; S. F. Bowman, and F. L. Thompson, Jr. Stewards. The annual officers banquet will take place some time in January, announcement of which will be made later.

Mesdames Cleo Brown and A. B. Furnish were hostesses on last Friday evening, at one of the most delightful open meetings of the Woman's Club. The President, Miss McCord, spoke briefly of the work of the clubs in Kentucky; Mrs. J. W. Brown read a very interesting paper on Leonardo da Vinci, artist, of the much-talked-of stolen "Mona Lisa," and Dr. Wisner gave an interesting talk on China.

The refreshments were delightful and have been pronounced by several of the ladies who have been on the role of entertainments surpassing anything in the past.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.
